

Nurses for Single Payer

Oregon Nurses Leading the Way to Single Payer

Nurses for Single Payer (NFSP) is a nonprofit dedicated to the achievement of a universal, publicly funded health care system. Nurses can lead the way to a single payer system which provides access to health care for all. Our current focus is to engage with nurses and nursing students in Oregon through outreach to nursing schools, nursing organizations and individual nurses. Nurses are a strong and respected voice in their communities and can be effective advocates for a single payer health system.

Does your health insurance company make you sick? Help Nurses for Single Payer treat this illness!
